NOVO SELO TRAINING AREA

PART 5 PROTECTED ZONE „MOCHURITSA RIVER” BG 0000196

**SOFIA
2012**

**Approved by the Bulgarian Council of Ministers by a Decision 122 /02.03.2007
The zone is protected under the Habitat Directive.**

The Protected zone „Mochuritsa River” comprises the upper valley of the Mochuritsa river, west of the village of Mokren

PURPOSES OF CONSERVATION ON PROTECTED ZONE:

- conservation of the area of natural habitats and habitats of the species and their populations, that are subject to conservation within the Protected Area
- conservation of the natural status of the natural habitats and the habitats of the species, that are subject to conservation within the protected zone and for the species, typical for that habitat, characteristic species and conditions of the environment.
- Restoration of the area and the natural status of the priority natural habitats and habitats of species, as well as, restoration of the population of the species that are subject to conservation within the protected zone, when necessary.

CURRENTLY EXISTING SYSTEM OF PROHIBITION:

Article 37 of the Biodiversity Act says that, the wild animal and plant species listed in Annex 3 hereto shall be designated as protected for the entire territory of Bulgaria.

According to Article 38 of the Biodiversity Act, the following shall be prohibited in respect of the animal species listed in Annex 3 hereto:

- 1.all forms of deliberate capture or killing of specimens by whatever devices, means, or methods;
2. hunting and disturbance, particularly during the period of breeding, rearing, wintering and migration;
3. destruction or taking of eggs, even where abandoned; destruction of, damage to, or removal of nests;
4. damage to, or destruction of, breeding, resting or staging places;
5. taking of found dead specimens;
6. possession, rearing, movement, transport, export, trade and offering for sale or exchange of specimens taken in the wild;
7. stuffing, possession, exhibition to the public, movement, transport, export, trade and offering for sale or exchange of stuffed specimens.

The prohibitions referred to in Items 1, 2, 6 and 7 of Paragraph (1) shall apply to all stages of life of the animals.

According to Article 40 the following shall be prohibited in respect of any plant species listed in Annex 3 hereto:

1. picking, collecting, cutting, uprooting or any other manner of destruction of specimens in their natural range in the wild;

2. possession, rearing, movement, transport, export, trade and offering for sale or exchange of specimens taken in the wild.

The prohibitions covered under Paragraph (1) shall apply to all stages of life of the plants.

According to Article 45 of the Biodiversity Act, all bird species other than such listed in Annexes 3 and 4 hereto, naturally occurring in the wild state within the territory of the Republic of Bulgaria, shall be subject to conservation and control with a view to the maintenance of the populations thereof at a favourable conservation status.

According to Article 46 the following shall be prohibited in respect of the birds referred to in Article 45 herein:

1. capture or killing of specimens by whatever devices, means, or methods;
2. keeping of specimens;
3. destruction of, damage to, or removal of nests;
4. destruction, as well as the taking and keeping of eggs, even where abandoned;
5. disturbance, particularly during the period of breeding and rearing.

A subject to conservation within Protected zone „Mochuritsa River” are the following:

- 2 types of habitats
- 5 types of Mammalia, included in Annex of Directive 92/43/EEC and 3 other types, included as other valuable
- 2 types of Amphibia
- 4 types of Reptilia
- 2 types of Pisces
- 7 types of invertebrates, in included in Annex of Directive 92/43/EEC

SUBJECT TO CONSERVATION

1. HABITATS INCLUDED IN ANNECS I - [COUNCIL DIRECTIVE 92/43/EEC](#)

- 91AA* - *Eastern white oak woods
- 91M0 - Pannonian-Balkan turkey oak-sessile oak forests

2. BIRDS, INCLUDED IN ANNECS I - [COUNCIL DIRECTIVE 79/409/EEC](#)
